Beginning

First semester has gone by so fast. Who would have thought that learning could be so much fun? I wish you could see what I see each morning as I visit the classrooms. Yes they are having fun, but it is through the fun that learning is taking place. I am reminded of the saying "I hear and I forget, I see and I remember, I do and I understand".

The science room has been a highlight of our first semester. The children are very excited each week as new and different activities are available for exploration.

Thank you parents for all your help on field trip days, party days and especially for all those smiles and words of encouragement.
